1230-1. I would assume you could attend, but what do I know;) The original intent was to update Shaun on the status of the FIP. Since Janet wanted to include a FIP update as part of a call this past week on RH, Carl was able to brief Shaun earlier this week. Let me know, we can chat on Monday. I am putting together talking points today, so I should have a better idea of what we will be covering on Monday.

Sure will Dee, I am guessing I should have it by the end of day on Monday. Glad to help,

-Stuart

Hi there,

Stuart, could you please take the lead on and work with Cindy on pulling together a table summarizing/comparing BLM's flaring rule, Utah's oil and gas, U&O FIP and OOOO? The table should have enough level of detail to tell us the difference in each rule for each aspect, not just a yes/no table. Let me know if you have any questions, or feel free to collaborate directly with Cindy. Also, please let me know when you would be able to complete this, as with most things, we will need it sooner than later.

Thanks,

Dec
